PERMIT CONDITIONS:-NEMA/AGR/139/2019

1. This approval shall be **valid for 12 months** from the date of issuance and shall not be transferable.
2. This approval is for accessing **Not more than 720 – 2520 fecal samples and not more than 120 hair samples of Olive Baboons (Papio Anubis) for genetic sequencing and physiological extractions under the study: "Personality of stress coping – Influence on Social Complexity"** to be exported to The State University of New Jersey for advanced genetic analysis.
3. The samples shall retain their original KWS references. The accessed genetic resources and its derivatives shall be strictly held in KWS, and The State University of New Jersey
4. You shall ensure that the samples are well treated and preserved using the provided standards and procedures before storage and export to The State University of New Jersey.
5. You shall ensure that the basic analysis of the genetic resource such as identification, cataloging, analyzing and preservation of the samples to good laboratory standards are done locally at the KWS. You shall ensure that the local partner: KWS is involved in the collection, identification and preparations of the samples for export.
6. The genetic resource and the derivative shall not be transferred to a third party without the consent of the genetic resource providers KWS and NEMA. The genetic resource and the derivative shall not be used for commercial or profit purpose without understanding from genetic resource providers KWS and NEMA.
7. You shall deposit and keep records of all duplicates of the genetic resources with the relevant lead agency, KWS and provide evidence of deposition to NEMA.
8. You shall ensure that there is reasonable access by all Kenyan citizens to all genetic resources and information collected whether such genetic resources and intangible components including digital sequencing are held locally or abroad.
9. Ensure that all agreements entered into with respect to access of genetic resources shall be strictly for the purposes for which they were entered into. You shall abide by the provision of the Material Transfer Agreements entered with the providers of genetic resources.
10. You shall ensure that the local community/s Traditional knowledge on the genetic **resources including Digital Sequence Information (DSI)/ Synthetic Biology** and their uses are well safeguarded.
11. You shall furnish quarterly reports to NEMA on the status of research, including all discoveries from research involving genetic resources and/or intangible components. You shall comply with the improvement orders issued by NEMA's environmental inspectors throughout the project cycle.
12. NEMA reserves the right to suspend, cancel, revoke or vary this permit in the event of a breach of the conditions stated herein or any contravention to the Environmental Management and Coordination Act, CAP 387 and regulations thereunder.
13. Upon the completion of the intended studies, you shall return the remaining genetic resource to Kenya and deposit with the relevant lead agency KWS and notify NEMA of the return.
